This test consists of 9 pages, excluding the cover page.

Instructions to the teacher:

1. Read each question/instruction slowly and audibly to the learners.
2. Read the questions/instructions twice, while the learners follow in their booklets.
3. Do not explain the questions/instructions.
4. Give them time to write answers independently in the spaces and frames provided. Do not lead learners to the answers.
5. Once learners have completed a question/instruction, continue to read the next question/instruction.
6. Follow the same procedure to the last question/instruction.
7. All working must be shown on the question paper in the frames and not on rough paper.
8. Do not allow the use of calculators.
9. Do the practice exercises with the learners.

Practice exercises

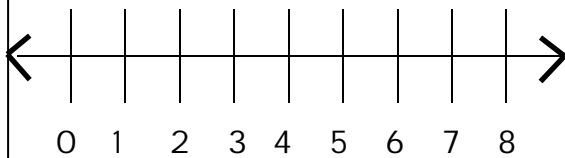

1. Calculate:

$$8 - 5 = \square$$

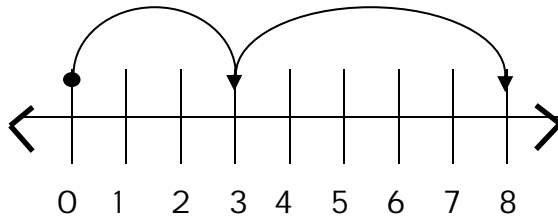

You have answered the question correctly if your answer is 3.
